EDUCATION

B.S. Software Engineering

Islamic Azad University, South Tehran

CORE EXPERTISE

Product Strategy

Roadmap Planning, PRDs & Epics, PLC, Agile Leadership

Tech & Architecture

API Gateway Design, Python Data Pipelines, Elasticsearch, UAA

Fintech & Identity

KYC APIs (Shahkar), Fraud Detection (AML), Wallet Architecture

Operations & Monitoring

Prometheus, Grafana, Grok Log Engineering, Incident Response

PROFESSIONAL SUMMARY

Senior Technical Product Manager with 15+ years of experience architecting, scaling, and managing high-availability fintech and data platforms for over 45 million users. Proven track record of translating multi-petabyte data challenges, API gateway requirements, and nationwide fraud detection network needs into executable PRDs, technical roadmaps, and business plans. Expert at bridging executive vision with cross-functional engineering execution to deliver robust, multi-million-dollar systems.

PROFESSIONAL EXPERIENCE

Senior Technical Product Manager

Apr 2025 – Present

Persia Fava Gostaresh

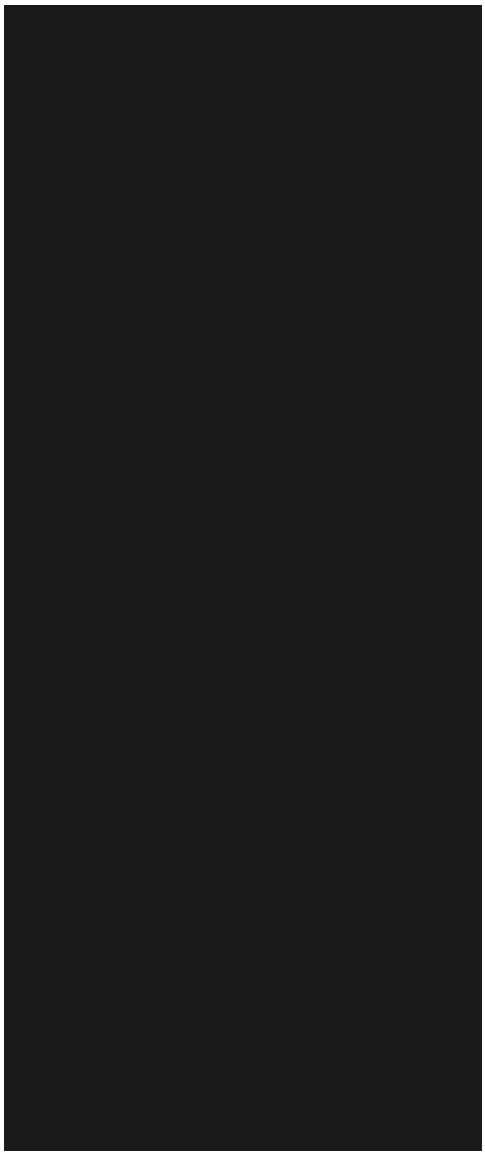

- Architected the business plan and 12-month roadmap for the new "Shenasa" API Gateway, scaling it to integrate 30+ national identity, KYC, and open banking endpoints (Sanbod, Yekta, Tosan).
- Led the development of a multi-petabyte 'Smart DB' for targeted advertising, engineering Python-based data pipelines to process, deduplicate, and convert multi-GB datasets into Parquet format for Elasticsearch querying.
- Spearheaded technical architecture readiness for high-stakes enterprise tenders (e.g., Digikala), authoring comprehensive specifications on High TPS capacity, failover mechanisms, and API security.
- Designed the end-to-end architecture for a User Authentication & Authorization (UAA) system, while directing the PRD and execution of new channels like the Feresta enterprise messenger bot.
- Acted as the single point of command and principal technical liaison between the CEO and cross-functional outsourced teams (Backend, Frontend, UI/UX) to ensure flawless execution.

Senior Payments & Fraud Consultant

Jul 2018 – Apr 2025

Digikala (Parent Company)

- Protected a platform of 45 million users as the Senior Subject Matter Expert (SME) in fraud detection and payment operations.
- Engineered an omnichannel response workflow, drastically reducing request resolution times from 48 hours to under 45 minutes.
- Negotiated directly with the national cyber police (FATA) to resolve legal barriers, enabling a nationwide 3-hour delivery infrastructure.
- Developed rapid-response protocols, recovering high-value assets in under 1 hour (down from multiple days).
- Resolved highly complex financial disputes with a 100% accuracy rate across three-way transactions.

Senior Tech-Ops Analyst / System Admin
Jul 2018 – Apr 2025

Digipay (Digikala Group)

- Reduced official fraud reporting times to law enforcement by 96% (3 days to <3 hours) through automated tracking flows.
- Managed the judicial inquiry division independently, clearing a backlog of 30,000 requests and increasing official compliance satisfaction from 20% to 98%.
- Architected the company's first monitoring stack utilizing Prometheus and Grafana, increasing incident response speed by 80%.
- Acted as a 24/7 technical liaison, translating complex Grok logs into accessible reports for executive teams in under 3 minutes.
- Designed multi-party reconciliation solutions for new fintech products (wallets, lendtech) prior to engineering development.

Founding Operations Analyst
Sep 2016 – Jun 2018

Homapay

- Facilitated a 3x increase in investor funding and subsequent acquisition by Digikala by maintaining strict operational stability.
- Scaled operations as one of the first 10 employees, independently managing all system monitoring and customer support.
- Maintained high platform uptime through manual debugging and operations of critical financial flows to mitigate code deficiencies.

Regional Sales Manager
May 2010 – Dec 2016

GD Retail Sell

- Directed a regional sales department of 30+ representatives with full P&L accountability.
- Negotiated international contracts and coordinated logistics, acting as the primary translator and liaison with foreign partners.

CEO / Board Member
Sep 2005 – Nov 2012

Aida Faraz Gostaresh

- Founded and scaled an IT consulting firm, managing a portfolio of over 15 SME clients.
- Architected, implemented, and managed hybrid network infrastructures (Windows/Linux) for enterprise customers.
