

ARIYA SARRAFZADEH

Senior Technical Product Manager | Fintech Executive

Tehran, Tehran Province | 9123117965 | ariasg2002@gmail.com

PROFESSIONAL SUMMARY

Senior Technical Product Leader with 15+ years of experience architecting and scaling high-availability fintech platforms for user bases exceeding 45 million. Expert in bridging the gap between C-level business strategy and technical execution, with specialized authority in Payments, Fraud (AML), and National Compliance (FATA/Shaparak). Proven track record of operating as a single point of command for complex technical challenges, reducing fraud reporting timelines by 96%, and securing critical investor funding through operational excellence.

CORE COMPETENCIES & KEYWORDS

Strategic Leadership: Technical Product Management, New Product Development (NPD), Product Lifecycle (PLC), Technical Roadmapping, Agile/Scrum Leadership.

Fintech Domain: Fraud Detection & Risk (AML), Payments Architecture (C2C, Wallet), Multi-Party Reconciliation, PSP & Bank Integration, FATA & Shaparak Compliance.

Technical Stack: High-Availability Monitoring (Prometheus, Grafana), Log Engineering (Grok), Big Data (Elasticsearch), API Design & Microservices, Backend Scripting (Java, Python).

PROFESSIONAL EXPERIENCE

P.G IT SOLUTIONS / PERSIA FAVA GOSTARESH

Tehran | Apr 2025 – Present

Senior Technical Product Manager

- Architected a multi-million dollar API Gateway business plan, delivering the first phase of testing within 1 week and establishing a rapid test-to-production cycle of 4 hours for major services.
- Secured revenue prior to official project launch by enabling live multi-tenant transactions before the end of the second quarter.
- Spearheaded the development of a multi-petabyte 'Smart DB' using Elasticsearch, preparing the architecture for self-learning (LLM) integration to automate query segmentation.
- Managed the full migration of infrastructure, website, and admin portals, creating the sequential roadmap that ensured a smooth transition with zero data loss.
- Launched 4-6 internal SaaS platforms, establishing technical flows in a previously unstructured 'greenfield' environment that improved team proficiency by 15% within the first 3 months.
- Eliminated communication silos by acting as the unified technical liaison between the CEO and outsourced development units (Backend, Frontend, UI/UX).

DIGIKALA (PARENT COMPANY)

Tehran | Jul 2018 – Apr 2025

Senior Payments & Fraud Consultant

- Safeguarded a 45-million-user platform by acting as the senior subject-matter expert on fraud and payments, directly advising finance, logistics, and legal teams.
- Engineered an omnichannel response workflow, slashing call-to-action resolution times from 48 hours to under 45 minutes.
- Enabled 3-hour delivery systems nationwide by negotiating regulatory frameworks directly with Iran's Cyber Police (FATA), overcoming significant legal hurdles.

- Recovered high-value assets in under 1 hour (reduced from days) by developing rapid-response fraud interception protocols.
- Solved complex financial discrepancies with a 100% accuracy rate in 3-dimensional financial transactions, resolving persistent discrepancies that had previously hindered financial visibility.

DIGIPAY CO. (DIGIKALA GROUP)

Tehran | Jul 2018 – Apr 2025

Senior Tech-Ops Analyst / Administrator

- Slashed official fraud reporting time to FATA by 96% (from 3 days to <3 hours) by engineering automated data-tracing flows and establishing a roadmap for fully automated answer drafting.
- Resolved a backlog of 30,000+ judicial inquiries, improving official satisfaction/avoidance rates from 20% to 98% by operating as a high-efficiency autonomous division.
- Increased incident reaction speed by 80% by engineering the company's first monitoring stack (Prometheus, Grafana) and implementing passive monitoring/anomaly detection for 60% of processes.
- Served as the critical communication bridge (24/7) between CX, engineering, and executives, translating complex deep-log data (Grok) into comprehensible "golden record" traces in under 3 minutes.
- Designed multi-party reconciliation solutions for Wallets, C2C, Insuretech, and Lendtech, acting as the sole technical interpreter between CS/XP teams and Business Development executives.

HOMAPAY CO.

Tehran | Sep 2016 – Jun 2018

Founding Operations Analyst / Admin

- Secured a 3x increase in investor funding and acquisition by Digikala by maintaining operational stability across C2C and billing platforms despite severe legacy code deficiencies.
- Scaled operations as one of the first 10 employees, single-handedly managing all monitoring and customer support systems during the startup phase.
- Maintained platform uptime by manually operating and debugging critical fintech flows (C2C, billing, top-up) to mask code deficiencies while the product matured.

GD RETAIL SELL

Tehran | May 2010 – Dec 2016

Mid Sales Area Manager

- Directed a sales division of 30+ agents, holding full P&L responsibility for the area.
- Negotiated international contracts and aligned logistics as the sole translator and communications lead for international partners.

AIDA FARAZ GOSTARESH

Tehran | Sep 2005 – Nov 2012

CEO / Board Member

- Founded and grew an IT solutions consultancy, acquiring and managing a portfolio of 15+ SME clients.
- Deployed mixed-network infrastructures (Windows, Red Hat) for all clients, handling architecture and administration.

EDUCATION

ISLAMIC AZAD UNIVERSITY, SOUTH TEHRAN BRANCH

Undergraduate Studies in Software Engineering
