

Ariya Sarrafzadeh

Technical Product Manager | Fintech & Platform Innovation

Tehran, Iran | +98 912 311 7965 | ariasg2002@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Senior Technical Product Leader with 15+ years of experience architecting, building, and operating high-availability fintech platforms. My expertise is at the intersection of product innovation, technical operations, and deep domain expertise in payments, fraud, and national-level compliance. I am a systems-thinker who thrives on building new products from the ground up, from initial flow creation and reconciliation logic to architecting monitoring stacks (Prometheus, Grafana, ELK) and fraud-detection patterns. I have a proven history of acting as the sole point of contact for complex technical, legal, and governmental challenges, translating business goals into resilient and scalable systems.

CORE COMPETENCIES

Product & Innovation	Fintech & Payments Domain
Technical Product Management	Fraud Detection & Risk (AML)
New Product Development (NPD)	Payments (PSP, C2C, Wallets)
Business Plan & Roadmap Creation	Compliance (Iran's Cyber Police - FATA)
Technical Architecture & Design	National Payment Networks (Shaparak)
Ops & Infrastructure	Leadership & Management
High-Availability Monitoring	Stakeholder Management
Prometheus, Grafana, ELK Stack	Executive Reporting
Log Engineering (Grok)	Agile & Scrum Methodologies
API Design & Microservices	Jira, Confluence

PROFESSIONAL EXPERIENCE

Senior Technical Product Manager

P.G IT Solutions / Persia Fava Gostaresh

Tehran, Iran | Apr 2025 – Present

Architecting a new multi-million dollar business plan for an API gateway, defining the complete 12-month roadmap, PRDs, and technical epics.

Leading the development of a multi-petabyte 'Smart DB' for SMS advertising, using Elasticsearch to enable complex, text-based query segmentation (75% complete).

Designing the end-to-end architecture for a new User Authentication & Authorization (UAA) microservice to standardize identity across all products.

Act as the single point of command and technical liaison between the CEO and all outsourced development teams (Backend, Frontend, UI/UX).

Senior Payments & Fraud Consultant (Concurrent Role)

Digikala (Parent Company)

Tehran, Iran | Jul 2018 – Apr 2025

Acted as the senior subject-matter expert for Digikala's 45-million-customer platform, advising finance, logistics, and legal teams on fraud and payments.

Single-handedly built and managed complex reconciliation reports for the main platform, correlating data from multiple payment sources where internal teams failed.

Developed rapid-response fraud interception plans; personally traced high-value stolen items in under 1 hour, interfacing with law enforcement.

Consulted with Iran's Cyber Police (FATA) on behalf of Digikala, successfully negotiating new national regulations for 3-hour delivery systems.

Senior Tech-Ops Analyst / Administrator

Digipay Co. (Digikala Group)

Tehran, Iran | Jul 2018 – Apr 2025

Owned and operated the entire Fraud & Judicial (FATA) vertical for 7 years as a "one-person division," managing a 10-year caseload of over 30,000 inquiries for a 56M-user base.

Served as the company's sole technical expert in 30+ judicial fraud cases, personally tracing money-laundering paths and training FATA officers on how to trace data.

Reduced official fraud reporting time to FATA from 3 working days to under 3 hours by building new automated data-tracing and reporting flows.

Dictated technical specifications and reconciliation patterns to external PSPs, forcing them to build new services to support the multi-million user platform.

Engineered the company's first logging standards (Grok) and search patterns, acting as the only engineer capable of deep-log debugging for 2+ years.

Architected the company's first monitoring stack (Prometheus, Grafana) and acted as the 24/7 recipient for all system errors for 3+ years.

Founding Operations Analyst / Admin (Startup Team)

Homapay Co.

Tehran, Iran | Sep 2016 – Jun 2018

Joined as one of the first 10 employees, single-handedly managing all operations, monitoring, and customer support for the initial 15-person startup.

Manually operated and debugged all fintech platforms (C2C, billing, top-up), masking severe code deficiencies to maintain a flawless operational record.

My operational stability was a key factor in securing a 3x increase in investor funding, growing the team to 50+, and enabling the company's acquisition by Digikala.

Mid Sales Area Manager

Gd Retail Sell

Tehran, Iran | May 2010 – Dec 2016

Directed a sales division of 30+ agents, holding full P&L responsibility for the area.

Served as the sole translator and communications lead for international partners, negotiating contracts and aligning supply chain logistics.

CEO / Board Member / Agent

Aida Faraz Gostaresh

Tehran, Iran | Sep 2005 – Nov 2012

Founded and led an IT solutions consultancy, acquiring and managing a portfolio of 15+ SME clients.

Architected, deployed, and administered mixed-network infrastructures (Windows, Red Hat) for all clients.

EDUCATION

B.S. Software Engineering

Islamic Azad University, South Tehran Branch | Oct 2001 – Jun 2006
